阅读理解（应用文） "Star Watchers" Summer Astronomy Camp — Information Sheet

BLUE OBSERVATORY SCIENCE CENTRE *Where young eyes meet old stars.*

About the camp Every August, our small observatory opens a 4-day astronomy camp for middle school students. Campers live in a simple mountain lodge, learn to use telescopes, and spend two nights watching the night sky together.

Key information

Dates	Monday 9 August – Thursday 12 August 2027
Place	Blue Mountain Observatory, 60 km north of the city
For	Students aged 12 – 15 (with a school proof)
Size	24 campers only (3 small groups, 8 per group)
Fee	900 yuan (transport, food, stay, telescope rental)
Languages	Chinese; simple English for science terms

Daily plan (example — Day 2)

- 07:30 Breakfast in the lodge.
- 08:30 Science class: *How far is a "light year"?*
- 10:30 Outdoor walk: reading the sky with the naked eye.
- 12:00 Lunch + long rest (under strong mid-day sun).
- 15:00 Workshop: make your own simple star map.
- 18:00 Light supper in the garden.
- 21:30 – 24:00 Night sky watching (warm jacket needed).

What you will learn

- How to find the **North Star**, the **Big Dipper** and five other easy groups of stars.
- How to use a small telescope safely — never point it at the sun, even for "one quick second".
- How to take simple photos of the Moon with a phone and a cheap adapter.
- How to record a "star journal" every night, in your own language.

What to bring

1. A warm jacket (nights are about 12 °C, even in August).
2. Long trousers + comfortable walking shoes.
3. A paper notebook, a pencil, and a torch with a red cover (normal white light hurts night vision).
4. Basic toothbrush and a 1-litre water bottle.

Safety rules

- Always stay with your group leader during night walks; the mountain road has some steep parts.
- Do not drink the stream water on the mountain, even if it looks clean.
- Switch your phone to silent after 21:30 so other campers can concentrate on the sky.
- If a camper feels sick, the lodge doctor is on duty 24 hours a day.

How to apply

1. Fill in the online form at www.bluestars-camp.cn before **Sunday 4 July 2027**.
2. Upload a short letter (150 words) about why you want to join.
3. A teacher from our centre will call selected campers before **20 July** for a 10-minute chat.
4. If you are selected, pay the full fee before **28 July**.

Cancellation

- Before 20 July: full refund.
- 21 — 28 July: 50 % refund.
- After 28 July: no refund, but we can move your place to next summer.

根据材料内容，选择最佳答案。

1. How many days does the camp last?

A. 2 days.
B. 3 days.
C. 4 days.
D. 7 days.

2. Who can join the camp?

A. Any adult who loves stars.
B. Middle school students aged 12—15 with a school proof.

C. Primary school students only.
D. Children aged 6—10.

3. What must campers bring, according to the passage?

A. A drone and a camera.
B. A warm jacket, a paper notebook, a pencil, and a torch with a red cover.
C. A new tent and a gas cooker.
D. A hair dryer and a bathtub.

4. What is one safety rule during night walks?

A. Run ahead to find the best place for watching stars.
B. Always stay with your group leader, because some parts of the road are steep.
C. Turn on all your phone lights to see better.
D. Drink plenty of stream water to keep warm.

5. What will happen if a camper cancels after 28 July?

A. Full refund.
B. 50% refund.
C. No refund, but the place can be moved to next summer.
D. Double refund.

答案与解析

1.
【答案】C
【题型】细节理解题
【定位】"Monday 9 August — Thursday 12 August"
【解析】4 天 3 夜。A/B/D 均错。故选 C。

2.
【答案】B
【题型】细节理解题
【定位】"Students aged 12 — 15 (with a school proof)"
【解析】12—15 岁中学生，需学校证明。A/C/D 均错。故选 B。

3.
【答案】B
【题型】细节理解题
【定位】"What to bring" 列表
【解析】暖外套、本、铅笔、红光手电。A/C/D 均错。故选 B。

4.
【答案】B
【题型】细节理解题
【定位】"Always stay with your group leader during night walks"
【解析】夜行必须跟随组长，山路有陡坡。A/C/D 均错。故选 B。

5.
【答案】C
【题型】细节理解题
【定位】"Cancellation · After 28 July: no refund, but..."
【解析】过期不退款但可转至明年。A/B/D 均错。故选 C。

词汇注释（超纲词）

- **astronomy** [n.] 天文学
- **observatory** [n.] 天文台
- **telescope** [n.] 望远镜
- **adapter** [n.] 转接器
- **refund** [n.] 退款
