Rules for safe flying

1. **Do not fly kites near the lake.** Falling kites into water are very hard to recover and can damage the ecosystem.
2. **Do not fly above the road** at the South Gate. Strings can tangle with passing cars.
3. **Wear gloves when using long strings.** Thin, fast-moving string can hurt bare hands.
4. **Give every flyer 5 metres of free space.** Strings of nearby kites can easily knot together.
5. No fireworks, no drones, no pets on the main lawn.

What to bring

- A hat, sunscreen, a reusable bottle of water.
- Comfortable running shoes (grass can be wet in the morning).
- A small plastic bag for your own rubbish.
- A kite — or ¥20 and a smile if you plan to buy one on the spot.
