阅读理解（应用文） Lihua Middle School "Eco-Makers" Autumn Workshop — Call for Student Members

---

Lihua Middle School · Science Club + Art Club
2027 Autumn "Eco-Makers" Workshop
Turn school waste into something useful, one small idea at a time

Our school throws away about **18 kg of paper, plastic and metal every day**. This autumn, we want a different story. The Science Club and the Art Club are joining hands to open an **"Eco-Makers" workshop** for students in Grade 7 and Grade 8, so that we can turn a part of that waste into **real, useful things for the school**.

🧰 About the Workshop

- **Dates: Saturday afternoons from 24 October to 19 December** (nine weeks).
- **Time:** 14:00 — 16:30.
- **Place:** Labour Education Room (Building B, Room 105) + outdoor yard behind the canteen (for painting and drying).
- **Team size: 30 students**, working in six teams of five.
- **Teachers on site:** Mr. Zhou (physics), Ms. Lin (art), and one visiting engineer from a local recycling company.

🛠️ What We Will Make — Four "Mini-Missions"

Mission 1 — Paper Stools (Weeks 1–3)
Folded cardboard stools strong enough for one student to sit on. **Target: 20 stools** for the school reading corner.

Mission 2 — Glass-Jar Lamps (Weeks 4–5)
Clean glass jars from the canteen become small bedside lamps with a 3 V battery and warm LED. **Target: 15 lamps**, donated to a nearby primary school.

Mission 3 — Plastic-Bottle Planters (Weeks 6–7)
Turn 500 mL plastic bottles into hanging planters for small herbs. **Target: 60 planters** for the school corridor.

Mission 4 — Open Project (Weeks 8–9)
Each team chooses its own waste material and its own eco-product, then presents the idea at the final show on **19 December**.

📋 How to Apply

1. Fill in the green form at the **Science Office (Room 401)**, or on the **school mini-app** → "Clubs" → "Eco-Makers".
2. Write **one short paragraph (60–80 words)** about a piece of waste in your daily life and how you might give it a second life.
3. Tell us **which two tools** you already know how to use safely (scissors, hot-glue gun, ruler, saw, screwdriver, etc.).
4. **Application closes Wednesday 22 October, 18:00.** Results will be posted at the bulletin board near the library **on Friday 24 October morning**.

📌 Safety and Gear

- The workshop provides **gloves, aprons, goggles and all power tools**; you don't need to buy anything.
- **No hot-glue gun is used by students alone** — always with a teacher watching.
- **Long hair must be tied back**; please wear **flat shoes** (no high heels, no sandals).
- Students with a skin reaction to paint or glue should mention this on the form; we will arrange safe tasks for you.

🌱 What You Will Get

- A handmade **"Eco-Maker" badge** after you finish any three missions.
- **Two volunteer-service hours per session**, stamped into your school record.
- Three **"Top Design" teams** at the December show will have their work displayed in the school hall for the whole of next term.
- More important, you will leave the workshop with a skill most textbooks don't teach: **turning waste into quiet, useful beauty.**

Planet Earth is our first classroom. See you on Saturday.

根据通知内容，选择最佳答案。

1. Who is this workshop open to?

A. All students in Grade 9.
B. Students in Grade 7 and Grade 8.
C. Only Grade 7 students.
D. Teachers only.

2. How many stools does Mission 1 aim to make, and where will they be used?

A. 5 stools, for the office.
B. 20 stools, for the school reading corner.
C. 50 stools, for the gym.
D. 100 stools, for another city.

3. What must an applicant do besides filling in the form?

A. Pay 30 yuan.
B. Bring a new plastic bottle to the office.
C. Write a short 60—80 word paragraph about a piece of waste and how it might be given a second life, and list two tools they know how to use safely.
D. Take a photo with the head teacher.

4. Which of the following safety rules is mentioned in the notice?

A. Students may use the hot-glue gun alone.
B. High heels and sandals are allowed.
C. Long hair must be tied back, flat shoes only, and the hot-glue gun is always used with a teacher watching.
D. No gloves are provided.

5. What is one benefit for a student who finishes three missions?

A. A 500-yuan cash prize.
B. A handmade "Eco-Maker" badge, two volunteer hours per session in the school record, and a chance to display work in the school hall.
C. A free trip abroad.
D. A new smartphone.

答案与解析

1.
【答案】B
【题型】细节理解题

【定位】About the Workshop "students in Grade 7 and Grade 8"
【解析】直引。A、C、D 均错。故选 B。

2.
【答案】B
【题型】细节理解题
【定位】Mission 1 "Target: 20 stools for the school reading corner"
【解析】数量 + 用途直引。A、C、D 均错。故选 B。

3.
【答案】C
【题型】细节理解题
【定位】How to Apply 第 2、3 条
【解析】60—80 词段落 + 两件工具。A、B、D 无依据。故选 C。

4.
【答案】C
【题型】细节理解题
【定位】Safety and Gear 段 "Long hair must be tied back ... flat shoes ... No hot-glue gun is used by students alone"
【解析】三条安全规则直引。A 错、B 错、D 错。故选 C。

5.
【答案】B
【题型】细节理解题
【定位】What You Will Get 段
【解析】徽章 + 志愿时 + 展出机会为三大收获。A、C、D 夸张或无依据。故选 B。
