12-01 第2篇

# 阅读理解（应用文） Lihua Middle School Book-Swap Week 2027

---

**Lihua Middle School · Library + Green Club**
**Book-Swap Week** — *"Old Books, New Owners; New Paper, Old Friends."*
**Mon 7 — Fri 11 December 2027, 12:20 — 13:30 & 16:10 — 17:00**
**Venue**: Library Floor 1 East Wing

At the end of every term, many of us find a small pile of books we have finished but cannot throw away: a fairy-tale collection from Grade 5, a boxed set of popular-science stories from last winter, a much-loved English graded reader. Meanwhile, a classmate two rows behind you has not yet met **exactly those** books. Book-Swap Week is our small, honest answer: a whole week during which any student at Lihua can **bring up to five** good-quality used books to the library, and **take home up to five** belonging to someone else — for free, in silence, in peace. No stickers, no points, no ranking. Only a quiet new door opened for each book, each reader.

---

## 🕒 Opening Hours

| Time slot | Day | What happens |
|---|---|---|
| 12:20 — 13:30 | Mon — Fri | Lunch Swap Hour |
| 16:10 — 17:00 | Mon — Thu | After-school Swap Window |
| 16:10 — 18:00 | Fri | **Final Long Swap** + end-of-week tidy |

- Students bring books in a **cloth bag** (no plastic), hand them to a volunteer at the counter, and receive a small paper stamp for each book accepted.
- One stamp = one take-home book.
- A single student may collect at most **5 stamps** across the whole week.

---

## ✅ What Kind of Books Are Welcome

- Children's story books from Grade 1 — 6 (many younger siblings of classmates will be happy!).
- Novels suitable for middle schoolers: friendship, adventure, historical, light sci-fi.
- English graded readers (CEFR A1 — B1).

- Popular-science illustrated books (biology, geography, small physics, light astronomy).
- Chinese classics published **in school-friendly abridged editions**.
- Well-kept **workbooks with no written answers** (pencil writing is okay if fully erased).

## ❌ What Cannot Be Swapped

- Any book with **torn covers, missing pages, or strong smells** (ink, mould, cigarette).
- **Reference books for this year's exam** (please return those to the Grade office).
- **Teacher keys or answer booklets** of any exam.
- **Books about adult topics** not suited to middle-school readers.
- **Books with personal writing** on more than two pages (a small note inside the front cover is fine and sometimes even sweet).

---

## 🧼 Before You Swap — Three Small Gifts to the Next Reader

1. **Wipe the cover** gently with a soft dry cloth.
2. **Rub out pencil notes** that are only personal reminders (keep the ones that might help the next reader, like small question marks or key words).
3. **Write a short one-sentence note** on the first blank page if you wish — for example, *"I read this on long bus rides in Grade 7 — the ending is kind."* Your name is optional.

   Many students kept letters that ran in library-swap books from the 2024 trial year; the small notes, unexpectedly, became the most-loved part of the week.

---

## 🔎 During the Swap — Four Small Rules

1. **Whisper, do not shout.** Voices at library-corner level.
2. **One book at a time in the hand.** No stacking five books on your arm at the counter.
3. **If two students want the same book**, the one who arrived first keeps it. No swapping for stickers, snacks, or favours.
4. **Walk to the small "pause corner"** if you want to read a few pages before deciding. Please do not read in the middle of the main aisle.

---

## 📥 Leftover Books — What Happens After Friday

- Any books that have not found a new reader by 18:00 Friday will be cleaned, packed in labelled boxes, and **donated** to the Sunlight Primary School in our partner county — two hours away by train. Photos of the arrival will be shared on the school mini-app.
- No leftover book is thrown away.
- A **Grade-9 logistics team** (12 students) will pack and drive to help.

---

## 🌱 Sustainability Notes

This Book-Swap Week is run jointly with the Green Club. Each book that finds a new home instead of a recycling bin saves roughly:

- **2.5 kg of water** (paper-recycling rinses).
- **1.1 kg of $CO_2$** (paper-recycling energy).
- Roughly **the weight of the book in new paper** at a distant mill.

If, across one week, 1,500 books find new readers at Lihua, we save about **3,750 kg of water** and **1,650 kg of $CO_2$** — roughly the yearly driving footprint of two small family cars.

---

## 🙋 Volunteer Roles (28 students)

- **8 counter swappers** (Mon—Fri lunches).
- **6 shelf tidiers** (after-school window).
- **4 "pause corner" guides** (Tue & Thu lunches).
- **4 book-wipers** for donation boxes (Fri 17:00).
- **6 logistics team members** for the Sunlight Primary trip (Sat 12 Dec).

Sign-up on the school mini-app → Library → Book-Swap. **Closing: Thu 03 December, 17:30.**

---

## 💬 A Small Word from the Library Team

> "At Book-Swap Week, the most precious thing that moves is not the book itself. It is **the small sentence someone wrote in pencil at the front**, the **slightly bent corner of page 47** where a reader paused to think, and **the quiet trust** that the next person, whoever she is, will read it a little more carefully because it was already loved. Please bring your good books. Please write a line. Please carry home the ones that find you."
> — *Library Team & Green Club, 1 December 2027*

**根据通知内容，选择最佳答案。**

**1. During Book-Swap Week, how many books may one student take home at most over the whole week?**

A. Unlimited.
B. At most five, because one stamp is earned per accepted book handed in and a single student may collect at most 5 stamps in the whole week.
C. Exactly one.
D. Ten.

**2. Which of the following books CAN be swapped?**

A. A reference book for this year's exam.
B. A teacher's answer key.
C. A children's story book from Grade 3 with a clean cover and no written answers.
D. A book with torn covers and strong cigarette smell.

**3. What does the notice say about leftover books that have not found a new reader by 18:00 Friday?**

A. They are thrown away.
B. They are sold to a shop.
C. They are cleaned, packed in labelled boxes, and donated to the Sunlight Primary School in a partner county, two hours away by train; photos of arrival will be shared on the school mini-app; no leftover book is thrown away.
D. They are returned to the library's own shelves only.

**4. According to the Green Club's note, about how much water and $CO_2$ can 1,500 swapped books save in one week?**

A. 1,000 kg of water and 2,000 kg of $CO_2$.
B. About 3,750 kg of water and about 1,650 kg of $CO_2$ — roughly the yearly driving footprint of two small family cars.
C. No water, no $CO_2$.
D. 15,000 kg of water.

**5. What is the main idea of the closing words from the Library Team & Green Club?**

A. New books are always better than old books.
B. The most precious thing that moves at Book-Swap Week is not the book itself but the pencilled sentence at the front, the slightly bent corner of page 47, and the quiet trust that the next reader will treat it more carefully because it was already loved.

C. Students should stop reading books.
D. Only Grade 9 students may swap.

# 答案与解析

**1.**
【答案】B
【题型】细节理解题
【定位】Opening Hours 段
【解析】"最多 5 枚印章"直引。A、C、D 均错。故选 B。

**2.**
【答案】C
【题型】细节理解题
【定位】What Cannot Be Swapped 段反向
【解析】A、B、D 均在禁止列表；C 符合可换条件。故选 C。

**3.**
【答案】C
【题型】细节理解题
【定位】Leftover Books 段
【解析】直引。A、B、D 均错。故选 C。

**4.**
【答案】B
【题型】细节理解题
【定位】Sustainability Notes 段
【解析】直引。A、C、D 均错。故选 B。

**5.**
【答案】B
【题型】推理判断题
【定位】结尾引言
【解析】"旧痕迹 + 信任"主旨。A、C、D 均偏离。故选 B。
