❓ Frequently Gently-Asked Questions

Q1. What if I feel nervous about any item?
A1. Please tell the nurse quietly at the entrance. You may take the items in any order. You may skip any item without reason.

Q2. What if my spine check (Station E) finds something small?
A2. Ms Fang will quietly write a short private note to your parent with a recommendation — usually a gentle referral to a local hospital for a second look. No classmate will know; no teacher will know.

Q3. Can I bring a friend to wait with me during the general body check (Station G)?
A3. **Yes, one friend may wait outside the curtain** if it helps you feel calmer. The friend does not enter the curtain area.

Q4. Can a student see her own results?
A4. **Yes, of course.** Your sealed envelope on 20 January is your own private paper. You open it; your parent reads it with you if you wish.

Q5. What about the mental wellness chat — will my teacher know what I said?
A5. **No.** Station H is private. Only you decide whether to tell anyone what was said. Ms Fang's rule is simple: *"Your worries are yours; you own them completely."*

💬 A Small Word from Ms Fang

"Dear Lihua students, the winter check-up is not a test. There is no pass; there is no fail. There is no mark. There is no comparison. There is only, for each of you, about twenty quiet minutes with people who want you to be healthy and safe. We will keep the lights low. We will speak softly. We will not hurry you. If you need two minutes to breathe, we will wait. If you do not want to do something, we will not push. Please trust us. And please, if you are worrying quietly about something bigger than height or weight — a feeling, a sleep problem, a fear — the kind door of Station H is open. Come quietly; leave quietly; tell nobody if you do not wish to. Winter is long. Your health is a

small warm lantern. Let us help you keep it lit.
— *Ms Fang, Head Nurse, 29 December 2027*"
