中考英语完形填空：野外露营

完形填空原文

For my birthday this year, my parents gave me a special gift — a camping trip to the mountains. I had always wanted to sleep outdoors under the stars, and finally my ***1*** was coming true.

We drove for about three hours before we reached the campsite. It was a flat area near a stream, surrounded by tall trees. Dad and I set up the tent while Mum ***2*** the cooking equipment. It took us nearly an hour because we were not experienced. The tent kept falling down, which made us laugh.

After the tent was finally ***3***, we went exploring. We walked along a narrow path through the forest. I saw many different birds and even a small squirrel jumping between branches. Mum pointed at some wildflowers and said, "Look how ***4*** nature is. You can never see this in the city."

As the sun went down, we made a campfire. Dad showed me how to start a fire ***5*** using dry leaves and small sticks. We cooked sausages over the fire and ate them with bread. The food tasted extra good because we were eating outdoors. After dinner, we roasted marshmallows and told ***6*** around the fire. Dad told a funny story about his own childhood camping trip, and we all laughed until our stomachs hurt.

The best moment came when we lay on the grass and looked up. The sky was full of ***7***. I had never seen so many before. In the city, the lights are too bright to see them clearly. Here, every star seemed close enough to ***8***. I even saw a shooting star and quickly made a wish.

That night, I fell asleep listening to the gentle sound of the stream. When I woke up the next morning, the air was cool and ***9***. I decided that camping was one of the best experiences I had ever had. Nature has a special power to make us feel ***10*** and free.
