中考英语完形填空：学校合唱比赛

完形填空原文

Our school choir competition was held last month. Every class had to perform a song. Our class chose "You Are My Sunshine" — a classic song that everyone knows. We had only two weeks to ***1***. Everyone was a bit nervous because we had never sung together as a class before.

Our music teacher, Mr Chen, helped us a lot. He divided us into different parts. Some students sang the main melody while others sang the harmony. At first it sounded ***2***. We could not keep the same rhythm. Mr Chen was patient. He said, "Listen to each other. Singing in a choir means we become one voice." We practised every lunch break and after school.

I was not a good singer. I was afraid I would ***3*** the performance. But my classmates encouraged me. "Just follow the person next to you," they said. "We are in this together." Their words made me feel better. I tried my best to blend my voice with the others. Slowly, we began to sound more ***4***.

On the day of the competition, we wore white shirts and dark trousers. We looked neat and united. Before we went on stage, we held hands and took a deep breath. "We can do this!" our monitor said. The ***5*** was full of students and teachers. When the music started, we all sang from our hearts. I forgot my nervousness. I only felt the joy of singing together.

We did not win first place, but we won the "Best Team Spirit" award. The judge said, "Your class showed the true meaning of unity. Your voices blended perfectly." We were all very ***6***. We had worked hard and it had paid off.

That experience taught me something important. Success is not always about being the best. Sometimes it is about doing something ***7*** with others. When we sing together, our small voices become one big, beautiful sound. That is the magic of a choir.

I still remember the moment we stood on stage. The lights were bright and the audience was quiet. We opened our mouths and the music ***8***. It was one of the best moments of my school life. I am grateful to my classmates for their patience and support. Together we created something we could never have achieved ***9***. That is what makes our class special. We are not just classmates. We are a ***10*** that can achieve great things when we work together.
