08-19 第1篇

中考英语完形填空：养小仓鼠

完形填空原文

Two months ago, my parents agreed to let me keep a hamster. I had wanted a pet for a long time, and a hamster seemed perfect — small, cute, and easy to care for. I named my new friend Xiao Bai because of his white fur.

Xiao Bai lives in a clear plastic cage with a wheel, a small house, and a water bottle. Every morning, I ***1*** his water and give him fresh food. Hamsters need a special mix of seeds and grains. I also give him small pieces of vegetables like carrots and cucumbers. He ***2*** them quickly with his tiny paws.

At first, Xiao Bai was shy. He would hide in his house whenever I came close. I read online that hamsters need time to get used to their owners. So I spoke to him softly every day and offered him treats from my hand. After about two weeks, he began to ***3*** me. Now he even climbs onto my hand when I put it in the cage.

Hamsters are nocturnal animals. They sleep during the day and become ***4*** at night. Sometimes I hear Xiao Bai running on his wheel at midnight. The sound used to bother me, but now I find it quite comforting. It reminds me that my little friend is happy and healthy.

Cleaning the cage is an important task. I do it every week. I take Xiao Bai out and put him in a safe box. Then I remove the old bedding, wash the cage, and put in fresh wood shavings. Xiao Bai always explores his clean cage with ***5*** when I put him back.

My little brother loves Xiao Bai too. He always wants to hold him. I taught my brother to be gentle because hamsters can get ***6*** easily. We must support their whole body when we hold them, and never squeeze them.

Last week, Xiao Bai escaped from his cage. The door was not closed properly. We searched the whole house and finally found him under the sofa, eating a piece of cracker. I was so ***7*** that I had found him. From then on, I always double-check the cage door.

Keeping a pet has taught me responsibility. I cannot forget to feed Xiao Bai or clean his cage. My parents said that taking care of a living thing would help me grow up. I think they are ***8***. Xiao Bai depends on me, and I must not let him down.

I hope Xiao Bai will stay with us for a long time. Hamsters usually live for about two to three years. I will make sure his life is happy and ***9***. Maybe when I grow up, I will still

remember my first pet and the ***10*** he brought to our family.

选项

1. A. change B. drink C. spill D. waste
2. A. throws B. holds C. eats D. drops
3. A. fear B. trust C. bite D. avoid
