08-21 第1篇

中考英语完形填空：户外徒步

完形填空原文

During the National Day holiday, my family went hiking in the mountains. We chose a trail that was suitable for beginners. The path was well-marked, and we had a map to ***1*** us.

We left home early in the morning. The drive to the mountain took about two hours. When we arrived, the parking lot was already full of cars. Many families had the same ***2*** as us — to enjoy the fresh air and exercise.

The trail started at the foot of the mountain. Tall trees lined the path, and we could hear birds singing. My younger brother ran ahead excitedly. My father reminded him to stay close because the path could be ***3*** in some places.

We walked for about an hour before we reached a rest area. There was a wooden bench where we could sit and drink water. My mother had prepared sandwiches and fruit for our lunch. We ate a little and then continued our ***4***.

The middle part of the trail was steeper. We had to climb over rocks and tree roots. I held my brother's hand to help him. My legs began to feel tired, but I did not want to give up. "We are almost at the top," my father encouraged us.

When we finally reached the summit, the view was amazing. We could see the whole city below us. The sky was clear and blue. We took many photos to ***5*** the moment. My brother jumped up and down with joy.

We rested at the top for thirty minutes. Then we started the descent. Going downhill was easier on our legs but required more ***6***. We had to step carefully to avoid slipping on loose stones.

On our way down, we met an elderly couple who were climbing up. They moved slowly but steadily. We greeted them and stepped aside to let them pass. The man smiled and said, "Enjoy your hike. The view at the top is worth the ***7***."

When we got back to the car, we were tired but satisfied. My brother fell asleep on the drive home. I thought about what the man had said. He was right — the effort we had put in made the beautiful view even more ***8***.

My father said we would try a longer trail next time. I am looking forward to it. Hiking has become one of our favourite family ***9***. It is a great way to spend time together, stay healthy, and ***10*** the beauty of nature.

选项

1. A. follow B. guide C. leave D. forget
