# 中考英语完形填空：暑假做家务

## 完形填空原文

This summer, my parents were both busy with work. They came home late every day and looked tired. I decided to help with the housework. At first I thought it would be easy. I was *1*.

Every morning I made my bed and cleaned my room. Then I would sweep the floor and take out the rubbish. On weekends, I helped with the laundry. I had to separate the white clothes from the coloured ones. My mother said mixing them could *2* the colours. I also learned to use the washing machine. It was not as difficult as I had imagined.

The hardest task was cooking. My parents usually ate lunch at the office, so I only needed to prepare dinner. I started with simple dishes like tomato and egg, and fried rice. Sometimes I burned the food or added too much salt. But my parents never *3*. They always said "Thank you" and ate everything. Their support encouraged me to keep trying.

Doing housework taught me to appreciate my parents more. I had never realised how much work they did every day. Now I understand why they are sometimes too *4* to play with me. They are not lazy — they are exhausted. I also learned that a clean and tidy home does not happen by itself. Someone has to put in the *5*.

One day my mother came home with flowers. She said, "These are for you. Thank you for being such a helpful child." I put them in a vase and felt warm inside. It was nice to be *6*. My father said that when I grow up and have my own family, I would be glad I learned these skills. I think he is right. Being able to take care of myself and my home is an important part of *7*.

I will continue to help with housework even when school starts. I can do some tasks before or after homework. A little help each day can make a big *8*. My parents have given me so much. The least I can do is share the load. As the saying goes, "Many hands make *9* work." When we all contribute, our home becomes a happier *10*.
