中考英语完形填空：学校科学实验课

完形填空原文

Last Thursday afternoon, we had an exciting science class in the lab. Our teacher, Mr. Wang, asked us to do an ***1*** about how plants grow. We divided into groups of four and each group got a small pot with soil and some bean seeds.

First, we put the seeds into the soil and ***2*** them with water. Then we placed the pots near the window where they could get enough sunlight. Mr. Wang told us to ***3*** our plants every day and write down what we saw in our notebooks.

During the next two weeks, I ***4*** watched my beans grow. At first, nothing happened. I felt a little ***5***. But on the fifth day, I noticed a small green shoot coming out of the soil! I was so excited that I ***6*** called my parents to tell them the good news.

Our teacher said that plants need water, sunlight and air to grow. He also ***7*** us that we should be patient because nature has its own pace. Finally, when all the plants had grown well, we had a small ***8*** in class. Each group shared their observations and we learned a lot from each other.

This experiment ***9*** me that learning by doing is much more interesting than just reading from books. I really ***10*** the hands-on experience and I hope we can have more such activities in the future.
