中考英语完形填空：参加学校辩论赛

完形填空原文

Last month, our school held an English debate competition. I was ***1*** to be chosen as a member of our class team. The topic was "Should students use mobile phones at school?" We were the negative side, meaning we had to argue that students should not use phones during school hours.

We spent two weeks preparing for the debate. Every afternoon after school, our team gathered in the empty classroom to ***2*** our arguments. Our English teacher, Miss Li, gave us a lot of help. She taught us how to organize our ideas and how to ***3*** our points clearly.

The day of the competition finally arrived. When I walked onto the stage, my heart was beating so fast that I could hardly ***4***. The other team spoke first. They gave many reasons to support their opinion. When it was our turn, my teammate stood up and presented our main arguments. I was responsible for the rebuttal part — I had to respond to what the opposite side had said.

I took a deep breath and stood up. I looked at the ***5*** and tried to speak slowly and clearly. To my surprise, my voice was steady and my words came out naturally. I pointed out that phones could distract students from their studies and that face-to-face communication was more ***6*** for building real friendships.

At the end, the judges announced the result. We won! I was so ***7*** that I could not believe it. Our team hugged each other and cheered. Miss Li came over with a big smile and said, "You did a wonderful job. I'm ***8*** of all of you."

This experience taught me that with enough preparation and ***9***, we can overcome our fears and achieve our goals. I now feel more confident when speaking in front of people. I hope to take ***10*** in more such activities in the future.
