09-27 第1篇

中考英语完形填空：班级种植角

完形填空原文

Our class has a small planting corner by the window. It was our head teacher's idea. She said that taking care of plants could teach us responsibility and help us learn about ***1***. We all agreed and decided to start our own "mini garden".

Each group was given a small pot and some seeds. We could choose what to plant. My group chose to grow green beans because they grow fast and are easy to ***2***. We filled the pot with soil, planted the seeds, and watered them. Then we placed our pot in the sunny corner and waited.

For the first few days, nothing happened. Some classmates were ***3*** and thought the seeds might be dead. But our teacher told us to be patient. "Seeds need time to grow. Just keep watering them and give them enough ***4***," she said.

About a week later, tiny green shoots appeared! We were so excited. We took turns to water the plants every day. We also moved the pot a little so that the shoots could get sunlight from different ***5***. Slowly, the plants grew taller and grew leaves.

One day, we noticed that one plant was turning yellow. We asked our teacher for help. She said we might have given it too much water. "Plants need water, but they also need the soil to be ***6*** sometimes. Don't water them every hour!" She laughed. We followed her advice and the plant gradually recovered.

Now our planting corner is full of green plants. We have beans, sunflowers, and even a small tomato plant. Taking care of them has become part of our daily routine. We have learned that growth takes time and ***7***. We have also learned to work together — when someone is ***8***, others will help water the plants.

Our planting corner has made our classroom more lively and beautiful. More importantly, it has taught us to appreciate nature and the ***9*** of life. I hope our plants will keep growing and maybe one day we can ***10*** the vegetables we grow. That would be truly wonderful!

选项

1. A. math B. history C. nature D. music
2. A. cook B. care for C. sell D. eat
3. A. excited B. worried C. happy D. proud

4. A. food B. sunlight C. space D. air
