10-01 第1篇

中考英语完形填空：国庆节升旗仪式

完形填空原文

October 1st is our National Day. Every year on this special day, our school holds a flag-raising ceremony to ***1*** the birthday of our country.

This morning, all the students and teachers gathered on the playground early. Everyone was wearing the school uniform and looked very ***2***. The national flag was bright red, shining under the morning sun. When the music started, the flag-bearers walked towards the flagpole with steady steps. We all stood straight and watched ***3***.

As the national anthem began to play, the flag rose slowly into the sky. I put my right hand over my heart and sang along with my classmates. At that moment, I felt very ***4***. I thought about all the people who had worked hard to build our country and make it strong.

After the ceremony, our principal gave a short ***5***. She told us that National Day was not just a holiday for fun. It was a day to remember history and think about our future. She said that as students, we should study hard and prepare ourselves to ***6*** our country one day.

Then our class went back to the classroom. Our head teacher asked us to write down one thing we could do for our country. Some students wrote "study harder." Others wrote "protect the ***7***" or "help people in need." I wrote "be a responsible citizen." I believe that if everyone does their part, our country will become even ***8***.

In the afternoon, my family had a big dinner together to celebrate the holiday. My grandparents told us stories about ***9*** life was like when they were young. Things were much harder back then. Hearing their stories made me feel grateful for the happy life we have today.

This National Day was ***10*** to me. It was not just a day off from school — it was a day that filled my heart with love for our country.

选项
