中考英语完形填空：参观科技博物馆

完形填空原文

On October 2nd, my best friend Li Hua and I visited the city science museum. We had been looking ***1*** to this trip for a long time.

When we arrived, the museum was already crowded with visitors. The building was huge and modern. We first went to the Space Hall. There were models of rockets and satellites hanging from the ceiling. A big screen showed a video about how astronauts live and work in space. I was ***2*** by the fact that astronauts have to exercise for two hours every day to keep their muscles strong.

Next, we entered the Robot Exhibition. A small robot greeted us at the door and said, "Welcome!" Li Hua was so surprised that he almost ***3*** his phone. The robot could dance, answer questions, and even play chess. We watched it play against a visitor and the robot ***4*** easily. "Robots are getting smarter and smarter," Li Hua said.

Then we went to the Science Experiment Area. We were ***5*** to try some experiments ourselves. I made a simple circuit that lit up a small bulb. Li Hua built a model bridge and tested how much ***6*** it could hold. It was exciting to learn science by doing things with our own hands.

The most impressive part was the 4D cinema. We watched a short film about deep-sea creatures. The seats moved, wind blew on our faces, and water sprayed lightly on us. It felt like we were really ***7*** in the ocean. Both of us screamed with excitement.

Before leaving, we stopped at the gift shop. I bought a small telescope and Li Hua chose a book about ***8***. We both agreed that this was one of the best days of our holiday.

On the way home, we talked about what we had seen and learned. Li Hua said he wanted to become a scientist when he grew ***9***. I told him I was interested in space exploration. We both believed that science and technology would make the world a ***10*** place.
