参考范文

Have you ever noticed how much food is wasted in our school canteen every day? Trays of rice, vegetables and meat are thrown away after lunch. This is a serious problem that we should all care about.

Food waste is harmful for many reasons. First, millions of people around the world still go hungry. Wasting food is disrespectful to those who do not have enough to eat. Second, producing food uses land, water and energy. When we waste food, we waste these precious resources too.

Here are my suggestions. First, only take what you can finish. Second, if you don't like a dish, try a smaller portion instead of throwing it all away. Third, our school could offer a "half-portion" option so students can choose the right amount.

Let's make "clean plate" our daily habit. Every grain of rice counts!

全文翻译

你有没有注意到我们学校食堂每天浪费了多少食物？午饭后，一盘盘米饭、蔬菜和肉被扔掉。这是一个我们都应该关注的严重问题。

浪费食物有很多危害。第一，全世界仍有数百万人在挨饿。浪费食物是对那些吃不饱的人的不尊重。第二，生产食物需要土地、水和能源。当我们浪费食物时，也在浪费这些宝贵的资源。

以下是我的建议。第一，只取你能吃完的量。第二，如果你不喜欢某道菜，试着少盛一些，而不是全部扔掉。第三，学校可以提供"半份"选项，让学生选择合适的量。

让"光盘"成为我们的日常习惯。每一粒米都有价值！

升格建议（3条）

建议	普通表达	升格表达
现象	Students waste a lot of food.	Every lunchtime, our rubbish bins tell a sad story — plates piled with perfectly good food that no one wanted to finish.
原因	Many people don't have enough food.	While we toss rice into the bin without a thought, somewhere a child is dreaming of the meal we just threw away.
号召	Let's not waste food.	A clean plate is not about being hungry — it is a quiet "thank you" to the farmer, the cook and the earth itself.
