参考范文

Should middle school students bring mobile phones to school? This is a hot topic in our class.

Some students think phones are helpful. They can use educational apps to study, look up new words in dictionaries and contact their parents in emergencies. I agree that phones can be useful tools.

However, the problems are hard to ignore. Many students secretly play games or scroll through social media during class, which seriously affects their learning. Some even stay up late chatting, leading to poor sleep and low grades. In addition, expensive phones may cause comparison and jealousy among classmates.

In my view, students can bring phones to school but should hand them in to the teacher before class and collect them afterwards. This way, we can enjoy the benefits of phones without being distracted by them.

Technology is a good servant but a bad master — the key is self-control.

全文翻译

中学生该不该带手机上学？这是我们班的热门话题。

一些同学认为手机有帮助。他们可以用教育类APP学习、查词典里的生词、紧急情况下联系父母。我同意手机可以是有用的工具。

然而，问题也难以忽视。很多学生上课偷偷玩游戏或刷社交媒体，严重影响了学习。有些人甚至熬夜聊天，导致睡眠差、成绩低。此外，昂贵的手机可能在同学间引起攀比和嫉妒。

在我看来，学生可以带手机到学校，但上课前应该交给老师，课后再取回。这样我们就能享受手机的好处而不被它分心。

科技是好仆人但坏主人——关键在于自控力。

建议	普通表达	升格表达
好处	Phones help us study.	A smartphone in the right hands is a pocket-sized library, translator and study partner rolled into one.
问题	Students play games in class.	The classroom becomes a battlefield between the teacher's voice and the phone's silent siren call.
建议	We should use phones wisely.	The phone should be a tool we pick up with purpose, not a chain that keeps us scrolling into the night.
