参考范文

Last Thursday, our class visited the Sunrise Solar Panel Factory as part of a social practice programme. The purpose was to learn how clean energy products are made.

A factory guide showed us around the production line. We watched how workers assembled solar panels step by step — cutting silicon wafers, connecting cells and sealing the finished product. Everything was done with great precision. We also had the chance to try assembling a small solar-powered toy car. It was harder than it looked!

The visit opened my eyes to the world of manufacturing. I was impressed by the workers' skill and patience. More importantly, I realised that every product we use in daily life is the result of someone's hard work and wisdom.

This trip taught me to respect every job and every worker behind the things we take for granted.

全文翻译

上周四，我们班参观了日出太阳能板工厂，作为社会实践项目的一部分。目的是了解清洁能源产品是怎么制造的。

一位工厂导览员带我们参观了生产线。我们看到工人们如何一步步组装太阳能板——切割硅片、连接电池、密封成品。一切都做得非常精确。我们还有机会尝试组装一辆小型太阳能玩具车。比看起来难多了！

这次参观让我大开眼界，了解了制造业的世界。工人们的技术和耐心让我印象深刻。更重要的是，我意识到我们日常使用的每一件产品都是某人辛勤劳动和智慧的成果。

这次活动教会了我要尊重每一份工作，尊重我们习以为常的事物背后的每一位劳动者。

升格建议（3条）

建议	普通表达	升格表达
所见	We saw workers making solar panels.	Behind the glass walls, steady hands and sharp eyes turned raw silicon into sunshine-catching windows.
体验	We tried to make a toy car.	Assembling that tiny car humbled us — what took the workers minutes took us half an hour and a lot of laughter.
感悟	We should respect workers.	Every product has a heartbeat — it is the rhythm of the hands that made it.
