参考范文

There are many ways to travel — by car, by bus, by bike or on foot. Each has its own advantages and disadvantages.

Cars are fast and comfortable, but they produce a lot of exhaust fumes and cause traffic jams. Buses are cheaper and carry more people, but they are sometimes slow and crowded. Cycling and walking are the greenest options — they produce zero pollution and help us stay healthy.

I usually ride my bike to school. It takes about fifteen minutes, and I enjoy the fresh morning air along the way. On rainy days, I take the bus instead.

To encourage green travel, I suggest our city build more bike lanes and improve public transport. Schools could also organise "Walk to School" days to raise awareness.

If each of us takes one less car trip a week, the air we breathe will be cleaner and the world we live in will be greener.

全文翻译

出行方式有很多——开车、坐公交、骑自行车或步行。每种都有优缺点。

汽车快速舒适，但会排放大量尾气并造成交通堵塞。公交车更便宜，载客量更大，但有时慢且拥挤。骑车和步行是最环保的选择——零污染还能帮助我们保持健康。

我通常骑自行车上学。大约十五分钟，我享受路上清新的晨风。雨天我改乘公交车。

为鼓励绿色出行，我建议城市多建自行车道，改善公共交通。学校也可以组织"步行上学日"来提高环保意识。

如果每个人每周少开一次车，我们呼吸的空气将更清洁，我们生活的世界将更绿色。

升格建议（3条）

建议	普通表达	升格表达
问题	Cars cause pollution.	Every traffic jam is a cloud of exhaust writing a slow goodbye letter to our clean air.
好处	Cycling is healthy and green.	A bicycle is a silent promise to the earth: I will get there, but I will not hurt you on the way.
号召	Let's travel green.	The road to a greener future begins with two pedals and a pair of willing feet.
