参考范文

Dear Kate,

Great to hear from you! Yes, I do keep a diary, and I've been writing one since Grade 7 — that's almost three years now.

Writing a diary has helped me in several ways. First, it improves my writing skills. The more I write, the easier it becomes to express myself clearly. Second, it helps me understand my own feelings. When I put my thoughts on paper, problems that seemed huge suddenly look manageable. Third, my diary is like a time capsule. Re-reading old entries reminds me how much I have grown.

If you want to start, here is my tip: don't pressure yourself to write long entries. Even three sentences about your day are enough. The key is to write regularly and honestly.

Give it a try — you might fall in love with it!

Yours,
Li Hua

全文翻译

亲爱的Kate，

很高兴收到你的来信！是的，我有写日记的习惯，从七年级开始到现在差不多三年了。

写日记在好几方面帮助了我。第一，它提高了我的写作能力。写得越多，表达自己就越容易。第二，它帮助我理解自己的感受。当我把想法写在纸上时，看起来很大的问题突然变得可以应对了。第三，日记就像一个时间胶囊。重读以前的日记让我想起自己成长了多少。

如果你想开始，这是我的建议：不要给自己压力写很长的日记。哪怕关于你一天的三句话就够了。关键是定期且诚实地写。

试试吧——你可能会爱上它的！

你的，
李华

升格建议（3条）

建议	普通表达	升格表达
好处	Writing a diary helps my writing.	A diary is a gym for my pen — the more I train, the stronger my words become.
感悟	Re-reading my diary is interesting.	Flipping through old diary pages is like meeting younger versions of myself — some make me laugh, some make me proud, and all remind me how far I've come.
建议	Just write a little every day.	A diary does not need perfect grammar or poetic language — it just needs your honest heart, one page at a time.
