中考英语完形填空：学做手工相框

完形填空原文

In our art club, the teacher announced that we would make photo frames *1* recycled materials. Everyone looked at each other with curiosity because none of us *2* done this before.

I decided to make a frame for my family photo. First, I cut the cardboard *5* the shape of a rectangle. It was harder than I *6* because the cardboard was thick. My classmate Tom lent me his stronger scissors, which helped a lot.

Next, I decorated the frame with blue tape and stuck tiny flowers on the corners. The teacher walked around and gave advice. She told me *7* another layer of tape on the back to make it stronger.

After an hour of hard work, I held up my finished frame proudly. It wasn't *8*, but it was full of love. I planned to give it to my parents *9* a holiday gift.

The teacher smiled and said, "The best gifts are *10* that come from the heart." Everyone in the class agreed.
